

Hello,

I am writing to express how K-LOVE, an FM translator station, has impacted our family in our local community in a positive and important way. It's most significantly seen in our children, and how they can talk with other children about the personalities and music they hear on K-LOVE, and how they are impacted by its positive and uplifting message. K-LOVE provides an alternative to anything else available in local radio, especially since it is listener supported and commercial free. It creates a bond between listeners, and it is one of the few positive voices for young people in the community. I imagine the number of comments you are getting on behalf of K-LOVE demonstrates my point regarding the bond between listeners at the local level.

I urge you to allow K-LOVE to continue in its current format.

Sincerely,

Craig Ibbotson
K-LOVE listener in Crystal Lake, IL
